## Meet your hosts

*We are a true country couple, I spent my childhood here in Taggerty while my partner grew up in a small village in Belgium. In 2017 after 2 years of renovating, landscaping and building we opened Bonfire Station, our unique wedding and events destination. When we are not hosting events or handcrafting beers right here on the farm, we travel as much as we can. From Iceland to Africa we trek, explore and hitchhike. All the while gaining inspiration for our ever evolving venue and property.*

*We have truly loved getting into the wedding scene and being part of such beautiful weekends. We hope you'll fall in love with our venue like others before and we can help you create the perfect celebration.*

« I can't stop thinking back to what a cracking day last Saturday was. It really was everything we were hoping for and more so thank you hugely! »
